RESEARCH AND PAPERS

PUBLICATIONS:

- Immune Status of Health Care Personnel from various Geographical areas in India against rubella: a crosssectional study.
- A retrospective study on high risk pregnancy and their outcome in a teaching hospital in south India
- A case of External Ophthalmomyiasis in semi urban area in Bangalore
- Isolation, Identification and speciation of Enterococci and their antimicrobial susceptibility in a tertiary care hospital
- Bacteriology and Antibiotic Susceptibility of wound infections in a Teaching Hospital, Bengaluru
- Seroprevalence of Rubella in Health Professionals
- Enzyme Linked Immunosorbent Assay and Immunochromatography in the Evaluation of Anti- Rubella Antibodies
- Detection of Extended Spectrum Beta Lactamase and Carbapenemase Production in Klebsiella Pneumoniae in a Tertiary Care Hospital
- Bacteriological Profile of Orthopedic Patients in a Tertiary Care Hospital
- Bacterial Pathogens in Urinary Tract Infection and Antibiotic Susceptibility Pattern from a Teaching Hospital,
 Bengaluru, India
- Detection of ESBL Producing Gram Negative Uropathogens and their Antibiotic Resistance Pattern from a Tertiary Care Centre, Bengaluru, India
- Microbiological Profile of CSOM and their Antibiotic Sensitivity Pattern in a Tertiary Care Hospital
- Standard Precautions: An assessment of awareness among health care personnel in a tertiary care hospital,
 South India
- Lactobacilli and Obesity
- Rotaviral diarrhea in children less than five years with reference to their vaccination status in a tertiary care hospital
- Significance of Modified Widal Test with Conventional Widal Test in the Diagnosis of Enteric Fever
- Secondary Pneumonia due to Rothia mucilaginosa in H1N1 patient
- Isolation Identification and its Drug Susceptibility Pattern in Orthopaedic Wound Infections

- Blood Stream Infection in Peadiatric Patients of a Tertiary Care Hospital: A Bacteriology and Antimicrobial Profile
- Seroprevalence of Rubella In Health Professionals
- Enzyme Linked Immunosorbent Assay and Immunochromatography In The Evaluation Of Anti- Rubella Antibodies
- Immune Status of Health Care Personnel from various Geographical areas in India against rubella: a crosssectional study
- A retrospective study on high risk pregnancy and their outcome in a teaching hospital in south India
- A case of External Ophthalmomyiasis in semi urban area in bangalore
- Isolation, Identification and speciation of Enterococci and their antimicrobial susceptibility in a tertiary care hospital
